

## SIERRA

The name Sierra evokes the robust character of the grain called rye, the most winter hardy of all cereals. Rye has a comforting dense texture, an earth hue, and a tangy taste. The Sierra family rye loaves are strong and intriguing, with an engagingly spicy aroma, a thick crust, and a moist body that keeps remarkably well. Try BREADBAR's Redwood Round which marries wonderfully with seafood game, or roasts, or the fruity Sierra variations sweetened with raisins or blueberries.
