

WALDEN ORGANIC WHEAT

Walden was the wooded retreat of Henry Thoreau, who went there to live in close communion with the natural world. BREADBAR has tried to capture something of the authenticity and engagement-in-nature of Walden. Made with partly stone-ground whole wheat flour, the Walden Organic Wheat dough is simple and bracing. The family's breads have a crispy crust and a fleshy crumb, with a delicious honey-spice taste that accompanies a wide range of foods, from soups and salads, to sauced dishes and all kinds of meat, poultry and fish.
